

DTI's Spring 2010 Fashion Trend Medalists

It's official! These hot spring trends will make you an instant style winner!

Crayon Colors

Primary shades like blue, green and yellow are great but so are those other colors in the crayon box like turquoise, violet and coral – grab your favorite shades and color up!

Pattern Play

You'll come alive in fresh prints including florals, abstracts, polka dots, tie-dyes and stripes. Are you daring? Sport a mix of prints for fashion flare. Prefer to play it safe? Toss on a print scarf or tote a patterned purse.

Frilly & Flashy

Warm sunny days and balmy winter nights call for romantic touches like ruffles, feathers, beading, embroidery and sequins. Keep it as simple as a feminine blouse or as brazen as a metallic shirt or feathered skirt - it's all in the details.

Honorable Mentions:

Cardigans & Boyfriends

Top your look with a girly sweater or a slightly oversized jacket.

Platform Wedges & Sandals

Count on platforms to take you to new heights.

Jumpsuits & Rompers

These playful looks aren't for everyone but jump in if you dare!

Statement Jewelry

Don't be shy – wear your favorite piece proudly! Extra chic are lucites, antique looks, brushed metals and crystals.

Let Dress to Impress coach you to style success with a customized image seminar, personal wardrobe consultation or an informative & entertaining fashion event.
